UCD CLINICAL RESEARCH CENTRE

TRIALIST PROGRAMME

AN INTERACTIVE, INNOVATIVE PROGRAMME
WEDNESDAY JULY 13TH

VISION

The UCD Clinical Research Centre has a long tradition of working with investigators to conduct high quality clinical trials which are improving patient outcomes. As trials have become more complex and the environment more challenging, we are now providing an opportunity for investigators to undertake specific training to enhance their Trialist skills. Delivered by the UCD Clinical Research Centre Team and external experts this programme will provide attendees with all they need to know about being a Trialist.

WHO SHOULD TAKE THIS COURSE?

This course is targeted at all who are interested in taking part in clinical trials, as an investigator, as a site lead or as a chief investigator. Staff of UCD and its affiliated IEHG hospitals are welcome to attend, as well as investigators from affiliated General Practices. Whether entirely new to clinical trials or an experienced investigator, this course will enhance your understanding, develop your network and open up new opportunities to engage in trials.

HOW WILL I LEARN ?

The course will be delivered in person on campus over one day of live sessions. Course material and additional pre recorded content will also be provided through our virtual learning environment, Brightspace.

CPD CREDITS / CME

A Certificate of Completion will be awarded to all attendees on successful completion of this course. This course has been approved for 15 CME credits from RCPI.
